

## DEFINING A NEW ERA OF FEELING AND PERFORMANCE

Five years ago, we launched the FUSION project. The goal was to combine our manufacturing expertise with our knowledge of foil kite, inflatable kite, paraglider and wingsuit design.

After utilising all the resources of our in-house production facility, the new FUSION freeride wing marks a paradigm shift in performance and is tailored to riders seeking higher speeds, dynamic jump and flight potential along with previously impossible angles up and downwind.

### CUTTING EDGE PERFORMANCE: RAM AIR TECHNOLOGY, 100% DOUBLE SURFACE, INTERNAL RIBS

The Fusion's design has unlocked enormous performance potential. Producing more lift, while reducing drag, means performance gains have moved in bigger steps and these improvements are revealed in far more areas than just locked-in, straight line speed.

Tested by the best... "It feels like a hot knife through butter."  
- Johnny Heineken.

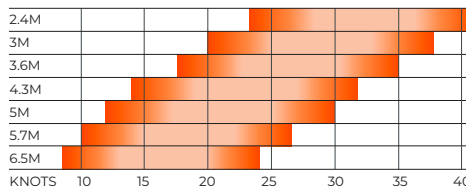

- INNOVATIVE AND UNIQUE FUSION DESIGN TECHNOLOGY
- COMBINING OZONE'S MULTIFACETED AERODYNAMIC KNOWHOW
- EXCEEDINGLY FAST AND DYNAMIC WITH INSANE RANGE
- DEVELOPED FOR RIPPERS LOOKING TO TAKE IT TO THE NEXT LEVEL!

### Features:

- Factory Ownership Advantage
- Designed with OZ-CAD
- Double Surface Design
- Ram Air Tech
- Supporting Internal Rib Structure
- Air Intake Valves
- Water Drainage Holes
- Streamlined Tip Junction
- Lower Surface Zipper
- Rigid Power Handles
- Pre-Loaded Leading Edge
- 20% Lighter and Stiffer Performance Dacron
- Reinforced Leading Edge and Strut
- Internal Reinforcements
- Direct Connect Strut
- Overlap Flat Seams
- Fast Flow Air Valves
- Unique bladder construction
- De-power/Surf Handle
- Harness Line Connection
- Wing Waist Strap
- Swivel Leash Line
- Wing Harness Line (optional)
- Wing Quick Release (Optional)
- Wing Wrist Strap (Optional)

### Wind Range Water:

### Wind Range Land:
