

PERFORMANCE FREERIDE / BIG AIR

The Code V4 is the dream one-board solution for any rider, anywhere, especially for those who want everything, no matter the conditions!

WHAT'S NEW?

Equally at home in flat water, chop and waves, the fourth version of the Code returns with the same super reliable hull and outline shaping. Further improving the ride sensation, the V4 boasts a new deck design and improved layup with an extra layer of UD fibreglass over the UD carbon strip in the centre.

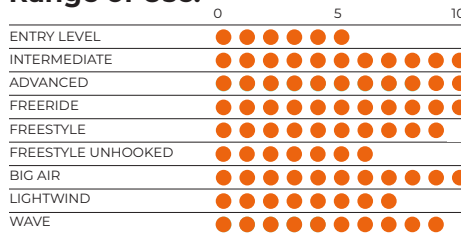

Flex has been maintained in the tips while the improved layup in the middle of the board has added responsiveness. The Code V4 is more capable than ever of handling rough, choppy conditions with ease while also delivering pop performance just when you need it.
